### Pre-payment for order confirmation

PS: No.

PM: Yes.

**Note:**

Novibelo doesn't make technical drawings of PM without prior payment. Technical drawings must be validated within a maximum of 48 hours, after which time they are considered accepted for production. Novibelo reserves the right to review delivery dates if technical changes are made after order confirmations and/or drawings approval.

## VII FINISHING OPTIONS

---

### IMPORTANT

- The inner parts of the furniture, backs and drawers structures are veneered in the same outer veneer. Back of the drawers are coated in melamine "NUD CRAFT".
- The finishes and references presented in the catalog are matte 0% (standard).
- **In the Novibelo Sample Kit we also have samples of veneers and lacquers with a high gloss finish, which is only made by request and has a different price.**
- All veneers are of natural wood. Exceptionally, pre-composed veneers can be used. Examples of the proposed ebony options.
- The variation of the veins and tones of the veneers are unavoidable due to different origin of the woods, exposure to light, oxidation, age, temperature, humidity, etc.
- It is not possible to ensure the exact same look of pieces with the same raw material if supplied in different time periods.
- **Novibelo will not be held liable for differences in tone or general appearance of materials used in furniture produced in different periods of time, even if with the same raw materials.**
- There are products which, due to their technical and/or design characteristics, may make their production impossible on certain veneers or finishes.
- The raw materials used in the catalogue products images are not binding.
- The physical samples of finishes are indicative only.
- Finishes replicated by customer sample, may vary from the original.
- Edges with a chamfered or rounded shape are not veneered. In these situations, the MDF is patinated in a shade as similar as possible to the raw materials used on the surfaces. Examples: BLAZE RCT table tops, BRAMA product tops and the bevels of GRADI, ALI and KLAN products.
